NOTE: These tables provide you with an overview of which strategies and activities your coalition has focused on both in the most recent period and across all progress reports submitted to date. Your coalition should be identifying local solutions to local problems, so your focus on strategies and activities may shift over time and you may choose not to engage in some strategies or activities. Examining these data in line with your action plan may contribute to revisions in your action plan going forward. Note that how data are reported varies by strategy type. Strategy data reported from 2012, or from start of grant, to most recent report.
